- ❑ For decades, infrastructure in Maryland has suffered from a systemic lack of investment. The need for action is clear. Learn more here: <https://togetherfortransportationfunding.org/>
- ❑ There is a bipartisan consensus that Maryland is falling behind in comparison to other nearby states on the condition of our infrastructure. Policies addressing the current lack of investment would have the potential to generate economic growth and enhance productivity. Learn more here: <https://togetherfortransportationfunding.org/> #fundingthefuture #transportation #highways #bridges
- ❑ Maryland's transportation system serves as the foundation of our entire economy. Moving people and vital goods and services is the indispensable responsibility of our transportation system, including our roads, bridges, highways and transit facilities. The time is now to ensure that we develop an additional revenue stream that will ensure that Maryland's transportation system is protected not only for years to come...but for generations. Learn more about what you can do to support this cause here: [https://togetherfortransportationfunding.org](https://togetherfortransportationfunding.org/)
- ❑ An efficient #transportation infrastructure is essential to fostering economic growth and ensuring that Maryland residents' lives are healthy and prosperous. Take action today: <https://togetherfortransportationfunding.org/take-action/>
- ❑ It is vital that we secure a comprehensive, long-term, solution to Maryland's transportation funding needs. We are calling on our legislators to solve both the long-term structural funding problem and the current Covid-19-related funding challenges.
